

SOLALITE™

TRANSLUCENT ALUMINIUM OVERHEAD DOORS

Up to the Most Demanding Challenges.

The Solalite™ door is an exceptional example of innovation and engineering. This door was created for customers who require a product which can withstand demanding, high-cycle applications and is impact, corrosion and moisture-resistant. The Solalite's sleek and contemporary appearance blends with current architectural trends.

WITHSTANDS DEMANDING ENVIRONMENTAL CONDITIONS:

- Performs in the most challenging weather conditions — including cold weather climates.
- Optional thermally broken frame inhibits cold transfer from the outside of the door through to the inside face.
- Resists impacts, corrosion and moisture infiltration.
- A smart choice for high volume applications such as car washes, automotive dealerships, agricultural applications, municipal facilities, underground parking structures and more.

5-YEAR

SOLALITE™

KEY FEATURES:

- Manufactured from 2" thick (50.8mm) corrosion-resistant aluminum extrusions. Framed construction in a standard clear anodized finish. Custom colours available.
- Polycarbonate, translucent glazing is lightweight, virtually unbreakable and energy efficient.
- Optional corrosion-resistant hardware package provides additional protection against harsh environments.
- Continuous hinge design inhibits water build-up between sections and prevents air infiltration, which maximizes thermal resistance.
- Built-in, integral strut bar in meeting rails provides extra strength and durability.

PANEL CROSS SECTION AND ADJUSTABLE HINGE

WARRANTY

5-year
Limited Warranty
on door finish

1-year
Limited Warranty
on workmanship
and materials

COLOUR CHOICES

Custom colours available upon request
